Section 3: Segment 2

Topic 5. Honey, We Aren't The Same

- How well do you know yourself? On paper, take at least 10 minutes to describe yourself, your motivations, tastes, and short-comings. Then talk your response over with your spouse.

- If you're a wife: Describe the positives and negatives you see in your marriage based on whether your husband is right-handed (mainly logical), or left-handed (mainly affective and emotional).

- Both genders: Take a little time to reflect: What don't you like about the way your spouse thinks? What don't you like about the way YOU think?

- What are the strengths of thought processes and decision-making that you bring into your marriage based on your gender? What are the strengths your spouse brings?

- Briefly describe how you perceive that GOD views your gender contribution to your marriage. Then describe how He views your spouse's contribution.
