Section 3: Segment 7

Topic 2. Men, Don't Pass The Buck!

- How would those who know you well describe your willingness to take responsibility for your actions, especially when you've been wrong?

- Do you accept responsibility when confronted, or do you rationalize and give excuses and blame?

- **Innovators**—people who hunger for God. They're willing to pay any cost to serve and obey Him because of their love for Him.

Early Adapters—these people enjoy relationships with innovators, and also have the confidence of others to be an influence in their lives.

Early Majority—people who don't want to be the first to change, nor do they want to be last.

Late Majority—these wait for institutional endorsement before considering anything new.

Laggards—the people who won't allow themselves to be changed no matter what you share.

Using these five categories, how would you describe yourself? Your spouse? Others who are close to you in your faith pilgrimage?

- How do you feel about where you and those close to you in the faith are?

- Would our Lord Jesus be pleased with your choice? Yes or no? If no, what do you need to change?
