Section 3: Segment 12

Topic 2. Maintaining Peace: Making Wise Decisions

Wise Decision Making: 5 Steps

- **Consideration • Proposal • Planning • Decision • Execution**

- Describe the process of making wise decisions in your household.

- What is the level of participation of others in your decision-making?

- How readily do you receive and consider the input of others? Ask them for feedback.

- When you don't follow the input of others, do you give them feedback as to why their suggestion wasn't used?

- What areas of decision making commonly create tension for you?

• Is there anything about your decision-making process that creates tension for others?

• In Segment 5, Topic 2, we discussed the halahkic process of applying God's Word to decisions. How well are you doing in prayerfully searching the Bible for application when the need arises?
