Section 3: Segment 16

Topic 4. Wives, Don't Step In Unwisely

Women who take matters into their own hands bring down unintended consequences upon their homes.

- Have you ever taken on responsibilities that God has given to your husband? Yes or no? If yes, what did you do? How did he react?

- Do you respond as his wife, or do you mother him and take the decision initiative upon yourself? Give an example.

- Do you make excuses for your husband's irresponsibility, hide things about the kids from him, or manipulate him emotionally to achieve your own desires? Ask your family if you do this. How does your husband feel when you do this? Ask him.
