Section 3: Segment 17

Topic 5. Eve Was Deceived; Are You?

“Once a woman is deceived, she does not recognize that she is deceived, because she has been deceived!”

- Do your husband, children, or others close to you view you as a woman who is easily deceived? Yes or no? Ask for an example.

- How likely are you to find out the “why” before you act? When did you last ask?

- When it comes to making godly decisions with your husband and family, ask them about your level of cooperation and wise input. How did their responses make you feel?

- How readily do you exercise independence through unilateral decisions? Describe the last women’s conference you attended. How did it bless your marriage and/or family that you took part in it?
