Section 3: Segment 17

Topic 6. Are YOU An *Ezer*?

- Ask your husband how you're doing as his ezer. What changes would help your covenant union?

- Take the time to discuss with your spouse the goals, strengths and weaknesses of your marriage. How have they changed over the years? In which areas do you need to work together so you can be in one accord?

- Do you take our Lord's commands to wives in 1 Peter chapter 3 seriously by putting them into practice? Which aspect is most difficult for you?

- Do you have some cherished friends whom you recognize in your spirit to be mature women of God? Ask them to share with you their life lessons that touch your present needs. You need to hear both their successes and failures. Can you identify which biblical principles they applied or missed?
